The Center's program provides learning opportunities in different fields ranging from the humanities and social sciences to the natural and human sciences.

Japanese students also attend courses offered by CGE. By studying together in a small and interactive class, exchange students and Japanese students can have more opportunities to have meaningful contact with one another, and benefit from the diversity of perspectives that are represented and shared in the classroom. In this way, the Center offers a unique space for academic collaboration between international and Japanese students that is intended to foster a dynamic academic environment.

CGE students from English-speaking countries, or whose English proficiency proves equivalent to a native-speaker may also enroll in courses offered by The Institute for the Liberal Arts (ILA) after consideration (up to 3 subjects per semester). ILA courses are also conducted in English at a native level and focus mainly on Japanese culture and society. However, requests to register for ILA courses may not always be granted as many ILA courses have limited space for enrollment.

CGE students are also permitted to enroll in Japanese language courses in accordance with your Japanese proficiency (up to 3 credits per semester). The main purpose of the Japanese language courses for CGE students is to allow them to understand the elements of grammar and acquire basic conversational abilities.

The CGE program considers a course that meets for two hours, once a week (x15 weeks) as two credits (except for Japanese language classes).

The maximum course load for CGE students is 30 credits for one year (15 credits per semester). CGE students are allowed to take up to 3 credits of Japanese language classes per semester. In some cases, students who take courses offered by ILA, credits of taking ILA courses are also included in the maximum course credit load.

Experience of the exchange program

A Year Spent at Doshisha University: The Best Year

R.W (from the States)

Since I can remember I have dreamed of spending time in Japan, immersing myself in the culture and studying the language. After studying abroad at Doshisha University I can say that this dream has finally been realized to the fullest extent. My year spent at Doshisha was, by far, the most amazing year of my life thus far. It was everything I was hoping it would be and more, and that is largely due to the amazing exchange program that Doshisha has created. The language classes were engaging, effective, and the teachers were incredible and truly cared about my success and growth. There were also a multitude of other classes available that were equally captivating, ranging from classes on Japanese religion to food culture in Japan. Furthermore, the amazing people at the Office of International Students were very active in making sure that we were comfortable and getting the most out of our experience; organizing immersion events and always available to talk in case we ran into any problems or had any concerns.

The Kyoto lifestyle that comes along with studying abroad at Doshisha was also paragon. My commute entailed a short bike ride through one of the oldest, most picturesque, and most iconic Buddhist temples in Japan. Grocery shopping was always fun and easy; eating out was also a pleasure due to the ubiquity of delicious restaurants found everywhere from Kyoto's bustling downtown area to the back alleys of quiet suburban neighborhoods. The type of open-minded, intelligent, friendly, and enthusiastic international students that Doshisha attracts also made this cross-cultural experience one of the best experiences of my life to date, and I now have lifelong friends from all over the globe. If I could spend another year studying abroad at Doshisha University, I would in a heartbeat.
