

INTERNATIONAL RELATIONS

Faculty of Social and Political Sciences

About Us

The IUP program offers cutting-edge curriculum with strong emphasis on three foci of study: Global Politics and Security, Peace and Conflicts Studies, and International Political Economy and Development. Upon completing their study at IUP in IR, graduates are expected not only to be the members of global society, but also to inspire and bring about changes to the existing political, economic, and social conditions, and to lead their transformations to build a better world. The program envisions and endeavours toward a just, peaceful, and civilized society.

The courses offered in the program reflect this vision, and are structured along two main threads. First, the courses contain a set of studies on various objects related with international relations. Second, they also contain discussions about the way international relations are portrayed, and explore the views about how the future of international relations should be. To this end, students will not only be equipped with mere knowledge and skills, but also with a critical attitude toward the existing conditions in international relations, such as injustice, inequality, poverty, environmental degradation and violence to master the following competences, i.e. Diplomacy, Transnational Affairs, Research and Academics, and Journalism.

International Exposures

International Exposure Program (IEP) is a program designed for IUP in IR students to study in our partner universities overseas. The IEP provides students with opportunities to participate and take leadership in multicultural interactions, ensuring their path to becoming conscious and active global citizens.

1. Double Degree Program

- Flinders University (Australia)
- Murdoch University (Australia)

2. Student Exchange Program

- The University of Glasgow (United Kingdom)
- Birmingham University (United Kingdom)
- Groningen University (The Netherlands)
- Utrecht University (The Netherlands)
- Malmö University (Sweden)
- University College Dublin (Ireland)
- Sciences Po (France)
- City University of Hong Kong (Hong Kong)
- Nagoya University (Japan)
- Aoyama Gakuin University (Japan)
- Ritsumeikan University (Japan)
- La Trobe University (Australia)
- Flinders University (Australia)
- The University of Melbourne (Australia)
- Murdoch University (Australia)
- The University of Queensland (Australia)
- De La Salle College of St. Benilde (The Philippines)

SCHOOL OF MEDICINE

Faculty of Medicine, Public Health, and Nursing

About Us

Established on 5th of March 1946, Faculty of Medicine, Public Health, and Nursing Universitas Gadjah Mada (FK-KMK UGM) has grown and developed rapidly over the years. FK-KMK UGM has positioned itself to become a leading university in Indonesia, Asia and in the world. Thousands of alumni have graduated and coloring the health sector in Indonesia and all over the world. Located in a campus with tropical climate, nice atmosphere and provided with various facilities that support education, research and community service.

School of Medicine's vision is to be an excellent national medical education program that is innovative, globally standardized, and superior, as well as to serve the interests of the nation and humanity with professional human resources support.

Achievement

- National Accreditation Board of Higher Education (BAN-PT) - 2015, also a category by LAM PT KES (2015-2019).
- Overall verdict 5 of 7 scales by AUN-QA 2009
- ISO: 9001 : 2008 Quality Management System - (2015 - 2017)
- CBT national exit exam rank 1st of 65 institutions 2014- 2015 (4 times)
- Pass of national exit exam: 97,43% (CBT), 99,63% (OSCE), 97,06%
- Benchmarking to LCME (Liaison Committee on Medical Education) USA

Education Phase:

3, 5 years Undergraduate Phase -> 2 years Professional Phase

International Exposures

1. Elective Exchange: Compulsory for 3rd year medical students which can be converted to 3 CSU.

Malaysia, Thailand, Singapore, Japan, South Korea, Netherlands, Germany, Czech Republic, Australia, Taiwan, etc.

2. Intercalated Master Program: Undergraduate program in UGM -> IMP to preferred university -> continue to Professional Phase in UGM.

University of Sydney, University of Melbourne, Maastricht University, University of Groningen, Vrije Universiteit, Erasmus MC Rotterdam, Tubingen University, University College Dublin, Umea University, Newcastle University, Manchester University, Taipei Medical University, National University of Singapore

Facilities

Located in a campus with tropical climate, nice atmosphere and provided with various facilities that support education, research and community service, such as:

- Integrated laboratory
- Complete Information Computer Technology (exp: e-books, medical journal, subscriptions, etc.)
- Skills Laboratory
- Library opens at 8 am-9 pm
- Medical Park
- Teaching Hospital
- Conducive environment

PUBLIC POLICY AND MANAGEMENT

Faculty of Social and Political Sciences

About Us

International Undergraduate Program in Public Policy and Management (IUP PPM) is the first public policy and management program in Indonesia that has been accredited by AUN (Asean University Network) at Program Level under the umbrella of ASEAN-QA. It reaffirms the quality of education we are providing, not only in Indonesia but also in ASEAN standards. The program is purposefully designed to respond to new challenges on public administration in local and national, as well as global level, and aims at arming student with knowledge and skills in three main areas:

1. GOVERNANCE AND PUBLIC POLICY

This area of interest is designed to arm student with board understanding and technical capacity to make a public policy, implement and evaluate it, as well as to underpin governance structure, which structures its process.

2. PUBLIC MANAGEMENT AND INNOVATION

Managing public sector in new context requires professional practitioner with strong background in human resource management, public service innovation, and knowledge management, which are delivered in this area of interest.

3. INTERNATIONAL DEVELOPMENT AND POLICY

This new area of interest focuses on preparing student with international dimension of development, preparing them in pursuing a career path in international corporations, and international NGOs.

IUP PPM offers students the opportunities to experience international exposure through one of the following tracks:

- Fast track: Undergraduate leading to Master
- Study Abroad: One to two semesters, discount applies
- Student exchange: One to two semesters, tuition waiver, fee paying at home institution
- Internship (additional): Three to six months in Indonesian-based international organizations, embassies, internationally-linked government bodies, donor institutions, international NGOs, or multinational corporations
- International executive training or short course program (additional): One week up to three months overseas

International Exposure

The exposure is made possible by extensive network with international universities such as:

- University of Agder (Norway)
- University of Groningen (Netherlands)
- Utrecht University (Netherlands)
- Universidad Pontificia Comillas (Spain)
- Queen Mary University of London (UK)
- University of Birmingham (UK)
- University of Leeds (UK)
- The University of Melbourne (Australia)
- De La Salle-College of Saint Benilde (Philippines)
- Sungkyunkwan University (South Korea)
- Ritsumeikan University (Japan)
- National Cheng Kung University (Taiwan)
- City University of Hong Kong (Hong Kong)

Facilities

Course material, fully-equipped classroom, e-learning facility, studios/laboratory, library with access to international journals, student lounge, free high speed internet access, student service office

International Undergraduate Programs in UGM

Intake 2020/2021

CHEMISTRY

Faculty of Mathematics and Natural Sciences

About Us

The Department of Chemistry, UGM, offers international undergraduate students:

- Small size of class of about 30 students
- A personal supervisor to oversee academic progress and personal welfare
- A teaching program which ensures a highly supportive learning environment
- Lectures supported by small-group tutorials and workshops
- Advanced research facilities
- Choice of elective chemistry courses is flexible
- A range of industrial and international university collaborations
- Support for exchange program with foreign universities

Facilities

Array of state-of-the-art research equipments such as AAS, UV-Vis, DTA-TGA, Electrophoresis, Potentiometer, Bomb Calorimeter, GC-MS, HPLC, H-NMR, IR, UV-VIS, TLC Scanner etc. are available. In January 2010, the department acquired a new Transmission Electron Microscope (TEM), a major equipment to support quality of nano-research. It is also home to the Austrian-Indonesian Centre for Computational Chemistry (AIC).

International Partnerships

Some teaching staffs have various joint researches with their international counterparts such as from Keio University, Chiba University, Hokkaido University, TUBS, etc. The department is also actively involved in Excellence Center for Development (EXCEED) Cooperation, i.e. an international organization for sustainable water management in developing countries.

Our staff members develop 5 research groups that are Life Sciences, Industrial Chemistry, Environmental Chemistry, Material Chemistry and Theoretical and Computational Chemistry. In the last five years, they published more than 30 papers in international journals and 60 in national journals. Some of the faculty members even serve as editors and reviewers of international journals, as well as Scientific Adviser for International Foundation for Sciences, Sweden.

BIOLOGY

Faculty of Biology

About Us

Faculty of Biology UGM strives to provide high quality education. As one of 18 faculties in UGM, Faculty of Biology has vision which supports the university's vision to improve higher education learning leading to a World Class University. In line with its mission on producing superior and competitive undergraduate at the international level and since Undergraduate Program in Biology Faculty of Biology UGM has been acknowledged internationally by ASIIN, as well as to cater growing market demand for internationally oriented graduates in tropical biology, Faculty of Biology aims to establish International Undergraduate Program (IUP). The establishment of IUP Biology is expected to also expanding the Faculty of Biology portfolio as provider of higher quality and internationally competitive educational programs and as driving machine for development of infrastructure in Faculty of Biology

IUP Biology is developed as integral part of Undergraduate Program of Biology, Faculty of Biology UGM. IUP Biology will adopt Outcome Based Education (OBE) to ensure its education quality. The outcome of International Undergraduate Program is formulated in accordance to University as well as Faculty visions and missions. Graduates of IUP Biology are set to have ability to pursue further any career path in biology, particularly in Tropical Biology.

IUP Biology offers 3 majors, which are:

- Environmental Biology and Biodiversity
- Functional Biology and Development
- Molecular Biology and Biotechnology

Facilities

The IUP Biology will be supported with comfortable class rooms, laboratories with up to date equipment, arboretum, green house, animal house, Biology museum, field stations, as well as library with ever-growing digital and non-digital collections. IUP Biology will also be supported by internationally educated faculty staffs from Faculty of Biology and other Faculties in UGM.

Email : biologi-ugm@ugm.ac.id or iup.biologi@ugm.ac.id
Web : http://iup.biologi.ugm.ac.id/

International Exposure

IUP Biology can be completed in 7 semesters with total credits of 144-148. Moreover, the students are given chance to have international exposure through internship, extracurricular, thesis research, joint supervision, and dual degree from International partners (e.g. Tun Hussein Onn University (Malaysia), Tunku Abdurrahman University (Malaysia), Tunghai University (Taiwan), National Central University (Taiwan), Yamagata University (Japan), Nagoya University (Japan), and Australian National University (Australia). During the programs, students will be challenged through various activities such as lectures, seminars, projects, practical work, self-study and examinations.

COMPUTER SCIENCE

Faculty of Mathematics and Natural Sciences

About Us

There are many reasons why it is interesting and promising to study computer science.

- Computer science is an intellectually rich and rapidly growing field that has had a profound effect on our society and everyday lives.
- Computer science students have numerous opportunities to gain hands-on experience in this dynamic field through research and internship programs.
- Computer science majors are in high demand for well-paying jobs in technology, science, business, healthcare, industry, government, and other sectors.
- Computer science, computing and computer technology are part of just about everything that touches our lives from the cars we drive, to the movies we watch, to the ways business and government deal with us.

Facilities

The Department of Computer Science and Electronics has 5 research labs (Algorithms and Computing, Intelligent Systems, Data and Software Engineering, Computer Systems and Networking, Electronics and Instrumentation). The IUP students are also provided with a special common room and drinks, small-size classes, Wi-Fi hot spots, and library with large electronic resources.

The Excellence

The IUP-CS commits to provide students with an education of the highest possible quality. The program offers overseas as well as Indonesian students an opportunity to study and obtain their Bachelor's degree in Computer Science with international standard and excellent curriculum. Other than the 'A' category accredited by the National Accreditation Board of Higher Education (BAN-PT), the program has been accredited by ASIIN (Accreditation Agency for Degree Programs in Engineering, Computer Science, the Natural Sciences and Mathematics), a certified international accreditation agency that is based in Germany.

Students enrolled in IUP-CS are obliged for an international exposure program through either a double degree program, a student exchange program, an international internship, an international competition, a summer course program, or an international conference. For the purpose, we are establishing the cooperation with several foreign universities such as Nagoya University and Kanazawa University (Japan), University of Jinan (China), National Central University and National Taiwan University of Science and Technology (Taiwan), Universiti Tun Hussein Onn Malaysia (Malaysia), University of Birmingham (UK), University of South Australia (Australia) and University of Chicago (USA).

ACCOUNTING BUSINESS ECONOMICS

Faculty of Economics and Business

About Us

Meeting the international market demands for globally oriented graduates, Faculty of Economics and Business Universitas Gadjah Mada (FEB UGM) offers International Undergraduate Program in Accounting, Economics, and Management.

FEB UGM formulates its mission in order to develop leaders with advance knowledge and strong integrity so as to promote to the betterment of society. International Undergraduate Program Faculty of Economics and Business Universitas Gadjah Mada (IUP FEB UGM) is established as a vehicle to carry out and accomplish its mission.

FEB UGM is the first and only school of business in Indonesia accredited by AACSB International

All study programs at FEB UGM are accredited "A" by the National Accreditation Board.

In addition to prepare the graduates who are ready to play important role in the global market, IUP FEB UGM sets requirement to broaden students' international exposures. In order to get Sarjana (Bachelor) degree, they are required to experience at least one of the International Academic Programs, such as: Dual Degree Program, Student Exchange Program, or Short-term Academic Program.

Dual Degree Program Partners:

Australian National University, Australia
Erasmus School of Economics, The Netherlands.
ESC Clermont, France.
ESEM School of Business and Management Tours - Poitier, France.
Faculty of Economics and Business, University of Groningen, Germany.
Hochschule Osnabruck, University of Applied Sciences, Germany.
Hochschule Pforzeim, University of Applied Sciences, Germany.

Rotterdam School of Management, The Netherlands.
Saxion University of Applied Sciences, The Netherlands.
Toulouse Business School, France.
University of Hull, UK
University of Melbourne, Australia.
Victoria University of Wellington, New Zealand.

Facilities

The Faculty provides excellent facilities, including EBSCO online databases (with more than 1,800 journals), libraries with comprehensive resources in Business, Accounting, and Economics, Business Communication Center, Student Service Center (services for students to solve academic and non-academic problems), computer laboratory, campus bicycle, canteen, student housing and wifi account for each student with speed up to 384 kbps.

- Erasmus School of Law, Erasmus University of Rotterdam
- Law School Shantou University Peoples Republic of China
- Konrad Adenaur Stiftung (KAS), Germany
- Universiteit Utrecht Faculty of Law, Economics and Governance, School of
- University of Groningen, Netherlands
- University of Toulouse 1 Capitole, France

PSYCHOLOGY

Faculty of Psychology

About Us

The International Undergraduate Program (IUP) marks an important milestone of our 50-year contribution to society. As part of our commitment to prepare graduates to meet the global challenge of the 21st century, we invite spirited and passionate young people from different parts of Indonesia and from across the globe to be part of this exciting journey and make a difference in their local and global communities.

Here are your top 3 reasons to choose our International Undergraduate Program:

- Regionally-Accredited Curriculum. Our curriculum is Certified by ASEAN University Network
- International partnerships
- Unique Educational Experience

Students can explore psychology from cultural, indigenous, and spiritual lens; as well from state-of-the-art lens of neurosciences.

Our internationally qualified teaching staff, cutting-edge facilities, and academic excellence have made us the best Psychology Program in Indonesia and the only Psychology program in Indonesia that is certified by ASEAN University Network.

International Partnerships

We are establishing international cooperation with Macquarie University, Australia and University of Groningen, The Netherlands. Under this cooperation the students hold opportunity to take students exchange. More universities will be available for students exchange in coming years.

Facilities

- Modern and Comfortable Classrooms
- Laboratories
- Psychodiagnostic Laboratory
- Mind, Brain, And Behavior Laboratory
- Library
- Learning Center
- Quality Assurance
- Research Center
