

JICA Innovative Asia online short-term program (IOP)

Career Development Program

Application Guidelines

1. Overview

JICA Innovative Asia Program began in 2017 based on the "Japan Revitalization Strategy" approved by the Japanese Cabinet in June 2016. This program aims to enhance the circulation of capable young personnel between Japan and Asian countries and to promote innovation in the whole Asia. Also, inputs by Asian innovative human resources to Japan's business community are expected to bring about diversity to it, resulting in the mutual benefits between Japan and Asian countries, which will strengthen bilateral relationship in the long run.

The program consists of the long-term program and the short-term program and invites participants (scholars) every year over the course of 5 years from 2017 from the 60 partner schools of the target 12 countries. However, as it has become difficult to carry out the short-term program in Japan due to the spread of COVID-19, it will be conducted online as a replacement.

2. Objectives

- (1) Participants will have the opportunity to learn about the research and business activities and work environment of Japanese companies/organizations at a high level of innovation in the field of science and technology through concrete examples and cases.
- (2) Participants and companies/organizations will have the opportunity to build up a network of connections in the future by interacting with each other.
- (3) Participants will obtain useful information and increase their motivation for studying and developing a professional career in Japan.

3. Date

(1) Wednesday, December 22nd, 2021 (Application has been closed.)

(2) Friday, January 14th, 2022
