

Application Guidelines for the Student Exchange Program 2026/27

We are happy to announce that our guidelines for student exchange program 2026/27 are ready.

If any students at NWU's partner universities wish to join NWU from April 2026 to March 2027 and study for 6 months or 1 year, please take necessary steps below.

The number of students we accept is based on our exchange agreement. If you are not sure about the number, please ask us.

Nara Women's University was founded to provide female students with the highest learning environment, and our main purpose has been to foster women who can succeed in society through education and research. Therefore, our regular students are all female and most of the exchange students are female as well.

If there are any male students who still would like to take our courses and receive credits or do research with specific academic advisors at our university, understanding our purpose and the environment, please let us know before applying for the program. However, please be aware that there might be some restrictions on taking some courses given the characteristics of the courses.

In addition to that, please be notified that as NWU started to have mutual attendance of liberal arts/ studies among other universities from 2022, male students from these universities may attend classes together.

Also, please be advised that in some cases, we might not be able to accept students after considering their major or when they would like to start studying.
