

Positive Hack Camp 2025

International cybercamp for future cybersecurity leaders

Moscow | July 26–August 10, 2025 | Participant age: 18 and above

Positive Hack Camp is a global educational initiative by Positive Technologies. A two-week program that combines intensive training in ethical hacking, real-world practical exercises, and international experience sharing. Beyond learning, participants join a global community of aspiring white-hat hackers.

70+

specialists received training in 2024

20 countries

participants from all around the world

120+

specialists are expected in 2025

What do I get:

- Hands-on skills in white-hat hacking, data protection, and cyberintelligence
- Real-life cases from Positive Technologies experts
- Connections with participants from around the world; your own global network
- Confidence building, leadership skills, project experience, and connections with Russia's leading white-hat hackers

Who is it for:

Students and young professionals over 18, who are:

- Tech geeks and aspiring ethical hackers
- Ambitious learners ready to grow fast and build international contacts

Participation details:

- The organizers will provide accommodation, meals, and a cultural program.
- Participants are responsible for arranging their own travel to and from Moscow, as well as securing a visa for entry into the Russian Federation (if applicable).

Applications are open until June 15, 2025.
