ABOUT INTERNATIONAL MODEL UNITED NATIONS

International Model United Nations (IMUN) is a conference that brings youth together from around the world to learn and share ideas from a diverse set of experience and backgrounds where the Executive board, International Press and International Delegates consolidate to learn about diplomacy, international relations, and the United Nations.

At IMUN, delegates gain insight into the United Nations and the dynamics of international relations by assuming the roles of UN representatives & members of other international bodies and national cabinets. International MUN is an exciting opportunity to debate issues that confront world leaders, to draft resolutions in response to the global issues and work with others who are equally motivated and passionate about the topics of debate. The longevity and dynamic that only a conference of our size can achieve, makes IMUN one of the preeminent simulation of UN in the world.

True to the spirit of the United Nations, IMUN strives to foster a constructive forum for open dialogue on complex global issues, including international peace and security and economic and social progress. IMUN stresses the in-depth examination and resolution of pressing issues by emphasizing the process over results. However, with great powers come great responsibilities. There are limitations to negotiations especially when international diplomacies and great interests are involved. We hope through IMUN, students learn the Importance of balancing national interests with the needs of the international community.

OBJECTIVES OF IMUN

01 Develop deeper knowledge on current global issues and improve critical thinking.

02 Strengthen their diplomacy skills and develop ideas to solve current international problems.

03 Improve researching, public speaking, debating and writing skills in addition to critical thinking, teamwork and leadership abilities.

04 Differentiate between the parliament and the UN, while distinguishing power struggle from diplomacy.

05 Improve international exposure by gaining experiences from delegates across the world.
